

## **Beware of Fake and Unauthorized Sales Sites Disguising as Official Websites of Japan Weather Association**

Japan Weather Association (JWA) has confirmed the existence of fake and unauthorized sales sites that pretend as the official sites of JWA. They are illegally using or selling digital contents and information without our permission. Please make sure not to use these fake and unauthorized sales sites by mistake.

JWA provides some of the contents of “tenki.jp”, a weather forecast media operated by JWA, as paid services through in-app purchases for smartphones. JWA also accept requests for the sale of weather data and images via “tenki.jp”, however these are limited cases and we usually do not sell our services on the internet.\* If you wish to purchase our weather data, please contact us through our corporate website. Our staff will contact you shortly for more detailed information.

If you accidentally use these suspicious sites, there is a risk that your personal and credit card information may be exploited improperly, or you may suffer various other damages. Please beware not to order or purchase any contents from these fake and unauthorized sales sites.

The domains of official websites and various services currently operated by or related to JWA are as follows.

### ●Japan Weather Association

Corporate Website	<a href="https://www.jwa.or.jp/">https://www.jwa.or.jp/</a>
